

ENVIRONMENTAL POLICY STATEMENT

(For CGPOL 003 Environmental Policy)

Cordwell's Group is committed to the "No-Harm Rule" and to protecting the ecological values of air, water, land, flora, fauna, and the acoustic environment. We ensure that our activities, products, and services prevent environmental harm and comply with all regulatory obligations.

We operate in accordance with ISO 14001, ISO 45001, ISO 9001, the Environmental Protection Act 1994 (Qld), Environmental Authorities (EA), MMQ legislation, and all relevant Australian Standards and Codes of Practice. We prevent pollution, minimise environmental impacts, and promote sustainable resource use, waste reduction, and recycling across all operations.

Cordwell's Group maintains environmental controls for dust, noise, water, land disturbance, rehabilitation, hazardous substances, and quarry operations. We conduct environmental monitoring, maintain emergency and spill response programs, and ensure incidents are reported and managed in accordance with WHS, MMQ, and EA requirements.

We integrate environmental considerations into planning, decision-making, and operational processes, and we commit to continuous improvement through measurable objectives, eco-efficient practices, and responsible resource management.
